Unantisfactory Cables, Weaker Prices at the Opening-Armour Thought to Have Turned Seller in Latter Part of Session.

OMAHA, Dec. 7, 1905.

The wheat market was weak today. Liverpool, which was expected to follow yesterday's American advance and open about to higher, opened only 160-34 higher and closed 160-34 diver. This scared some holders and they began to unload, bringing prices down from a lower opening. Armour began to support the market when May was at 89-36, and brought it back to 89-36. There was another break and the close was nearly to below yesterday. It booked to many of the trade, as though Armour was selling through commission houses, through the latter part of the session. December closed at 180-36. May at 89-36, and July at 84-36.

Light movement of corn together with short covering was the cause of an advance in corn. Shipments are much larger than a year ago and receipts smaller. December closed at 48-36, old December at 47-36-47-36. May at 48-36 and July at 48-36.

There is an unlimited demand for oats, especially for export, and receipts are falling off at country stations. Prices were about the same and trade was large. December closed at 21-36. May at 23-36 and July at 18-36. Primary wheat receipts were 78,000 bushels and shipments of 301,000 bushels, against receipts last year of 890-900 bushels and shipments of 301,000 bushels and shipments of 301,000 bushels of wheat. 119,000 bushels of oats, 41,000 bushels of wheat. Liverpool closed 460-364 diower on wheat and unclanged to 36 higher.

Export clearances of oats are enormous. Philadelphia cleared 424,000 bushels and Baltimore 460,000 bushels.

Inquiries for corn to ship to Chocimnati were received at Chicago yesterday. This is a very singular thing at this time of year, when central illinois and central indiana are full of corn. It is undoubtedly owing to the car situation.

The Minneapolis flour output last week decreased 55,286 barrels. The quantity turned out was tweek of December 2, 351,200 burrels. Renomball cabied: "Rajputana has a rainless autumn and harvest conditions are poor, except in the south and southeast. No rain in central Indian and cr

From a Chicago dispatch to Sunderland & Updike: "That there need be no fear of all the cash wheat not being cared for this month was shown by the Armour interest yesterday. They will take all that is delivered this month and say the December liquidation is over. There was 1,300,000 bushels No. 2 hard and No. 1 northern delivered in the offices yesterday by Bartlett-Frazier. Armour took \$140,000 bushels and Wrenn 300,000 bushels."

CHICAGO GL. IN AND PROVISIONS

Features of the Trading and Closing

CHICAGO. Thec. 7.—Liquidation of an enormous line of wheat by a leading holder caused a break today of nearly ic per bushel in the price of the May delivery. The market closed weak at almost the lowest point of the day, first quotations on May being off %c. Corn was up %c. Oats were practically unchanged. Provisions showed a gain of bc.

The slump in the price of wheat occurred soon after the opening and although the market railied several times during the day on covering by shorts, the feeling generally was weak. Trading was scarcely underway when brokers commenced to offer wheat in apparently unlimited quantities. Within a few minutes at least 2,000,000 bushels of the May option had been thrown into the pit. It was generally understood that this wheat was part of the holdings of a leading buil. This started heavy selling by pit traders and the result was a quick decline. Before the downward course of values was checked the price of May had fallen to 85c. Toward the end of the first hour offerings from the big longs became less frequent and trading was of a spasmodic character during the remainder of the day. The failure of the Liverpool wheat market to respond to the sharp advance registered here yesterday contributed to the weakness on the local board. News of the day which was generally buillish was seemingly ignored. Receipts in the northwest were small and total primary receipts to the weakness on the local board. News of the day which was generally builtsh was seemingly ignored. Receipts in the northwest were less than for the corresponding day a year ago. Demand for cash wheat, both in the northwest and southwest, continued unabated. In addition an official report stated that the wheat crop of India had been seriously damaged by drought. The market closed weak, with May at 89-c. Clearances of wheat and flour were equal to 318,000 bushels. Primary receipts were 736,000 bushels, compared with 890,000 bushels a year ago. Minneapolis, Duluth and Chicago reported receipts of 49 cars against 735 cars a year ago.

Notwithstanding the break in wheat the corn market was firm for the greater part of the day. Light offerings from the country and continued demand from exporters formed the basis of the strength. The market closed firm with prices at practically the highest point of the day. May opened unchanged to 15c lower at 45 124 245 25c, sold between 47 156 256 and 45 15c and closed at 45%c. Local receipts were 223 cars with one of contract of grade.

Oats were firm on active demand from pit traders and commission houses. The urgent demand from foreigners for American outs was the chief source of strength. Small local receipts augmented the builish sentiment. May opened unchanged to a shade

demand from foreigners for American onts was the chief source of strength. Small local receipts augmented the bullish sentiment. May opened unchanged to a shade lower at 20134c. sold between 21% and 234,2234c and closed at 234,c.

Trading in provisions was active and the market had a strong undertone. The May products were in good demand from investors. There was moderate covering by shorts and some buying by brokers credited to leading packers. Offerings came chiefly from small holders. At the close the May products were each up 5c, closing at \$15.65; lard at \$7.424,67.45 and ribs at \$7.274.

Estimated receipts for tomorrow: Wheat, S cars; corn, 255 cars; oats, 122 cars; hogs, 28,000 head. The leading futures ranged as follows: Articles | Open. | High. | Low. | Close. | Yes'y

plain the degree of stringency in the money market, but there can be no doubt that the quality of some of the collateral offered for loans, especially some of the stocks which have undergone great inflation in the speculation, has figured in the making of rates.

The stringency in the call money market induced decided stiffness in the time money market. There was evidence of a large movement of funds towards this center, reports indicating a receipt of at least \$1.000,000 from Canadian sources. The sterling exchange rate also fell to below the first by heavy payments for redemption of exchequer bonds was looked to to facilitate such a movement, but no engagement was made.

HOGS-There was a moderate run of hogs on the market today. In fact, it was hardly up to expectations—114 cars, about \$,000 head, being reported in up to noon. As compared with the run for the same day two weeks ago the receipts for the day show an increase of about 1,000 head, while compared with the run for the corresponding day last year the day's receipts show a decrease of about 5,000 head.

Trading for the day opened brisk and active, with prices generally a nickel to a dime higher than yesterday, and as the day progressed the trade continued active and prices also advanced still more than at the opening. The advance was due in part to

TROPICAL FRUITS.

opening. The advance was due in part to the bulge that has taken place in the provision market and to the fact that packers are needing a good supply of bogs to meet layer, per ib., 5c; walnut-stuffed, 1-lb pkgs.

the demands made upon them by their trade.

The market on hogs closed the day with trading settive and prices a strong for higher. The bulk of the sales during the day were made around \$1,0074.56, with toppy loads selling mostly at \$1,9074.56, with toppy loads selling mostly at \$1,9074. There were a few loads that came in late, and as result the market on these closed off a little from what it was early. Representative sales:
